PROFESSIONAL SUMMARY

Final year BSc Information Technology student at North West University (graduating 2026) with hands on experience in SQL, Python, Power BI and Excel. Built a Power BI dashboard analysing 82 South African vehicle insurance quotes and designed a normalised Oracle database for a transport company. Seeking a graduate role in data analytics, software development or technology consulting.

SKILLS

Data & Analytics: Power BI, Microsoft Excel, Data Analysis, Data Cleaning, Data Visualisation, Business Intelligence, Reporting
Databases: Oracle SQL, PL/SQL, Database Design, Normalisation, ER Modelling
Programming: Python, Java, C++, HTML5, CSS3, Object Oriented Programming
Tools & Methods: Git, GitHub, Systems Analysis and Design, Requirements Gathering, Cisco Packet Tracer
Professional: Analytical Thinking, Problem Solving, Communication, Teamwork, Adaptability, Attention to Detail

PROJECTS

Vehicle Insurance Quote Analysis, South Africa *Individual Project | Excel, Power BI*

- Analysed 82 insurance quotes across South African insurers for five popular 2020 vehicle models, comparing premiums and excesses for comprehensive, third party fire and theft, and third party only cover.
- Cleaned and structured the dataset in Excel, built an interactive Power BI dashboard and documented the data and findings on GitHub.

SafeRide Transport Services, Relational Database System *Group Project | Oracle SQL Developer, PL/SQL*

- Designed a normalised Oracle SQL database supporting trip scheduling, driver allocation and trip tracking, using ER modelling, business rules and data integrity controls.
- Wrote PL/SQL stored procedures and analytical reports to support operational decision making.

Textbook Rental Management System *Individual Project | HTML, CSS, C++*

- Built a rental system covering inventory management, rental validation and a user friendly interface, evolving an earlier console based application into a web based version.

Enterprise Network Design (2025) *Group Project | Cisco Packet Tracer*

- Configured a VLAN and subnet segment within a larger enterprise network topology.

EDUCATION

Bachelor of Science in Information Technology *North West University, Vanderbijlpark | 2023 to 2026 (expected)*

- Key modules: Data Analytics, Artificial Intelligence, Decision Support Systems, Systems Analysis and Design, Advanced Databases, Database Systems, Data Structures and Algorithms, Object Oriented Programming, Computer Networks, Operating Systems.

CERTIFICATIONS

- Data Analytics Essentials, Cisco Networking Academy: data cleaning, transformation, validation, SQL queries, business intelligence
- Introduction to Data Science, Cisco Networking Academy: data science principles and workflows
- Introduction to Cybersecurity, Cisco Networking Academy: cybersecurity principles, common threats, risk management
